Nkumba University, Kampala, Uganda
October 2025

Bachelor's Degree in Engineering Information Technology
University of N'Djamena, N'Djamena, Chad
April 2023

LANGUAGES

- **French (Advanced)**
- **English (Advanced)**

PROJECTS & ACADEMIC EXPERIENCE

Master’s Thesis Project (Feb.2024 - Sept.2025, Nkumba University, Kampala, Uganda)

- Compiled, cleaned, and analyzed large datasets of medical images.
- Maintained accurate project documentation and research records.
- Prepared technical reports and research findings
- Organized project data for analysis and presentation.

Bachelor's Project (Sept.2021 - Aug.2022, University of N'Djamena, N'Djamena, Chad)

- Designed and developed a web application for managing journals and academic publications.
- Organized and maintained digital records and information.
- Created database structures for storing and retrieving documents.
- Supported data management and reporting functions.

Enterprise Resource Planning (ERP) System Design

- Designed centralized data structures for finance, HR, and supply chain records.
- Managed databases using MySQL.
- Supported information organization and reporting functions.

Data Analytics Dashboard

- Collected and organized student performance data.
- Developed reports and dashboards using Tableau.
- Verified data accuracy before analysis.
- Generated visual reports to support decision-making.

Cybersecurity Risk Assessment

- Collected and analyzed system information to identify security risks.
- Prepared reports documenting findings and recommendations.
- Maintained accurate records of identified vulnerabilities.
- Assisted in documentation of security improvement measures.

Cloud Migration Project

- Assisted with the organization and migration of student records to AWS cloud storage.
- Verified data accuracy and accessibility after migration.
- Maintained documentation related to data transfer activities.
- Supported information management and record integrity.

VOLUNTEER & LEADERSHIP EXPERIENCE

Volunteer IT Support, Local Community Center (2024)

- Installed software, configured networks, and trained staff on basic IT usage.

University Tech Club Member

- Participated in hackathons, coding competitions, and collaborative projects with peers.

Graduate Research Assistant (Academic Experience) | Nkumba University

- Maintained research databases and electronic records.
- Collected, verified, and organized research data.
- Prepared reports, presentations, and documentation.
- Ensured accuracy and confidentiality of project information.
- Managed digital records and supported administrative processes.
- Coordinated information sharing among project stakeholders.
